Decision + operational corroboration

Invest in Better Borrower Targeting - controlled experiment only

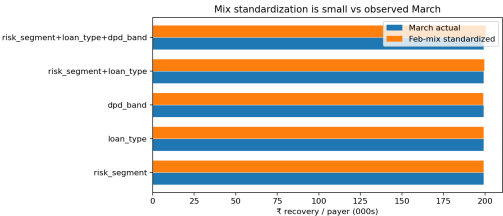

Primary: incremental 14/30-day recovery per eligible account.
Guardrails: complaints, contact burden, payer rate, recovery/payer.
Do not use historical last-touch attribution as causal ROI.

Data forensics

500 duplicate payment IDs; INR 2.59 Cr duplicate SUCCESS value removed.
Account/borrower identity conflicts across event systems.
Agent IDs overwritten across identities.
12,422 RPC-like dispositions on non-ANSWERED calls.
